

Speaker Biography – Scott Hallenberg

Scott Hallenberg has been employed with Tacoma Water for over 20 years and is currently an Operations Manager in the Water Quality section responsible for oversight of the regulatory compliance programs associated with the source water and distribution system. Prior to joining Tacoma Water he spent 10 years in the US Navy as an Engineering Laboratory Technician aboard a nuclear powered submarine and as a Nuclear Power Plant Supervisor/Instructor at a land based prototype.

Scott is a member of the AWWA and ABPA and also serves on the State of Washington Operator Certification Advisory Committee, Relevancy Review Committee and Cross-Connection Control Advisory Committee. He conducts periodic trainings related to Water Quality and Cross-Connection Control for the Washington Environmental Training Center (WETRC) and is a member of the Green River Water/Wastewater Training Advisory Committee. He also conducts training sessions for the Tacoma Water JATC program through Tacoma Community College and Pierce College.
